

HYDROSENSE

HYDROSENSE SYSTEM

The Icare HydroSense is a range of unique products designed to manage and maintain a comfortable temperature. Heat sensitivity is a common issue caused by disease or immobility including multiple sclerosis, diabetes, kidney disease, reduced mobility, inflammation and climate.

The machine has night settings and a built in timer, to prevent chills. The settings can be changed using the touch screen control panel.

80 Watts - uses less electricity than a light bulb

Whisper quiet motor function

Large temperature range - Cools to 8°C and heats to 48°C
